Did you know?

Speech and language delays are the most common developmental delay in early childhood.

At the Institute for Child Development, we are experienced and welcoming of children with speech and language delays, who receive EI services.

We understand that many children experience communication delays early in life, and we are prepared to support you and your child in his or her growth and development.

The Institute for Child Development is nationally and internationally known as providing state of the art services. We utilize evidence-based services that focus upon the constantly evolving base of applied and basic research in child development. The Institute works with numerous state, national, and international service, educational, and government agencies.

Jennifer M. Gillis, Ph.D., BCBA-D – Associate Director
Associate Professor – Clinical Psychology
Adjunct Assistant Professor of Psychiatry - SUNY Upstate Medical University
Licensed Clinical Psychologist – NY

Institute for Child Development
Speech Services Program
Institute for Child Development Speech Services Program

Programs for children up to 3 years old

We help children who may have speech or language delays or disorders in the areas of:

- Articulation (speech sound production)
- Fluency (flow and rhythm of speech)
- Language comprehension
- Expressive language
- Pragmatics (social use of language)
- Voice

Building your child’s speech and language skills:

- Improves your family’s communication with each other
- Improves your child’s enjoyment in daily activities
- Helps your child develop peer relationships
- Fosters learning about the world

At ICD, we recognize that each child is unique so we work collaboratively with all of our families to ensure that the services we provide are individualized and appropriate for the child’s family culture.

We rely on evidence-based intervention strategies so that your child receives state of the art treatment in a child and family-friendly, supportive environment.

Institute for Child Development Speech Services Program offers:

- Individual speech therapy sessions
- Group speech therapy sessions
- Enhanced developmental social communication groups

Professional staff and experts in speech development:

Our NYS licensed Speech-Language Pathologists, all of whom hold the Certificate of Clinical Competence awarded by the American Speech-Language-Hearing Association (ASHA), are skilled in thoroughly evaluating and treating your child’s speech and language needs. Our Speech-Language Pathologists are experts in speech development in early childhood, evidence-based speech therapy practices, and augmentative and alternative communication, including assistive technology. Speech-Language Pathologists at ICD frequently participate in advance training and education to further their expertise and present at professional conferences.

There are no seven wonders of the world in the eyes of a child. There are seven million.
-Walt Streightiff
